DEWALT®

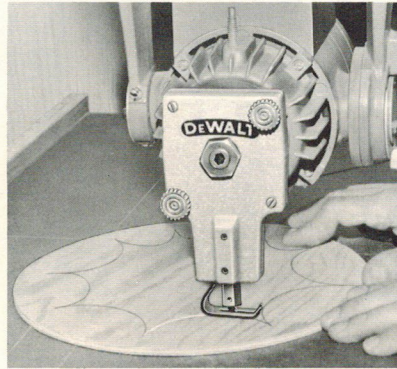

Minute Magic
SABER SAW

Saves the COST and SPACE of Separate Band Saw

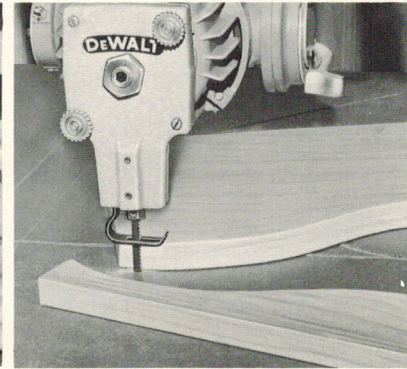

Makes all curve work real easy!

Here's the newest DeWalt accessory that helps you do curve work the fast, easy way . . . a new, low-cost Saber Saw that fits quickly on the motor spindle • Lightweight, weighs only 23 ounces • Operates in perfect plane to deliver smooth, true cut with minimum vibration on soft or hardwoods • Plywood • Hardboards • Lumber-core • Misc. plastic materials • 18 gauge sheet steel and aluminum • 12 gauge aluminum extruded shapes • Capacity up to 2" thick.

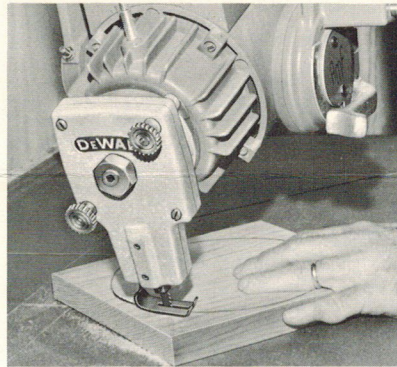

Features full ball bearing crank action, no intermediate gears or belt to worry about • Delivers 3600 high speed 3/8" strokes per minute for smoothest cut • Tilts to any angle for bevel cuts in any position on table • Big table working surface fully supports material for accurate results • Gives you band saw performance at low Saber Saw Cost.

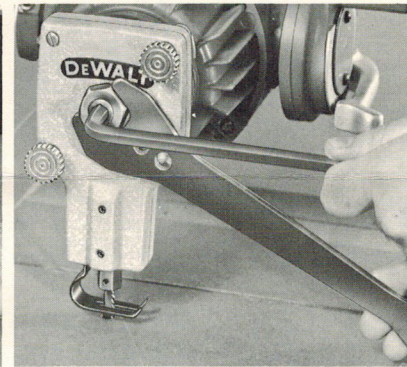

DOES INSIDE CURVE WORK

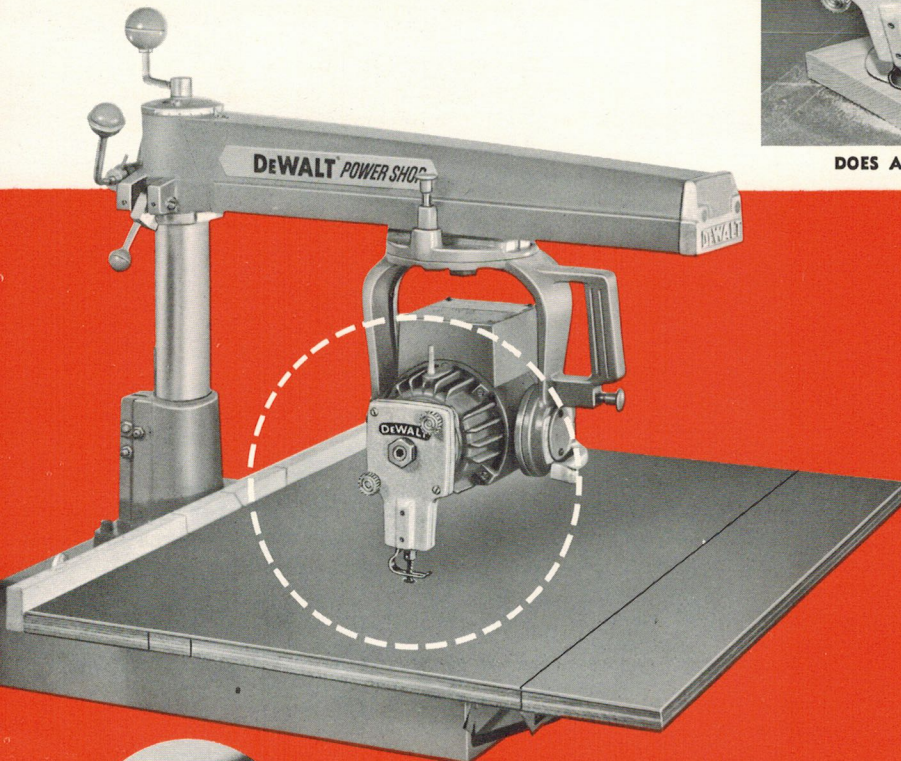

DOES OUTSIDE CURVE WORK

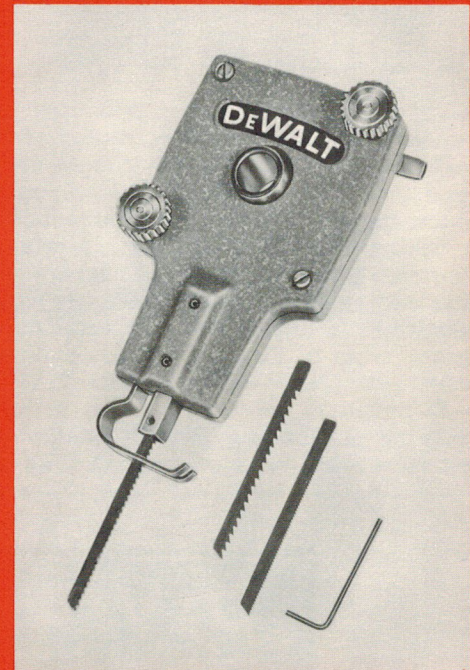

DOES ANGLE CURVE WORK

MOUNTS DIRECTLY ON MOTOR

ALL-NEW!

DEWALT®

QUALITY ENGINEERED

to do all the work, save the space
 and cost of separate band saw

All-new, compact design is safe, easy to handle • Lightweight, weighs only 23 ounces • Mounts directly on motor spindle, no power loss at point of cut • 3600 high speed $\frac{3}{8}$ " strokes per minute assure smooth, true cuts • Extra long hex type bearing shuttle guides blade in perfect plane • Floating hub mount adjusts automatically, avoids misalignment • Full ball bearing crank-drive action • Spring work hold-down for safety • Fully counter-balanced to minimize vibration and noise in performance • Shuttle ways fully adjustable to maintain true cutting action always. Shuttle ways are faced with friction proof material, require little lubrication • Integral quick locator pins assure instant set-up on motor arbor • Simplified blade mount speeds set-ups, gets more use out of saber saw blade • Uses standard $\frac{1}{4}$ " saber saw blades, available anywhere • Designed to deliver band saw performance at low saber saw cost. This is truly an outstanding DeWalt quality engineered accessory that will help you get more work done on your DeWalt Power Shop.
